 - Minimum 3 calibrations
 - Balance can be increased during the agreement period
- 3 Agreement length**
 - 3 or 4 years
- 4 Invoicing options**
 - Advance payment
 - Annual invoicing

Availability and terms

The Care agreement is available for all Vaisala instruments that have a calibration offering.

The agreement period starts from the confirmed order and the customer shall use the amount of calibrations within the agreed time. Customers have the flexibility to add more calibrations with agreed terms within the agreement period.

Each agreement includes one user license to Vaisala MyLearning portal.

Access to learning portal and experts

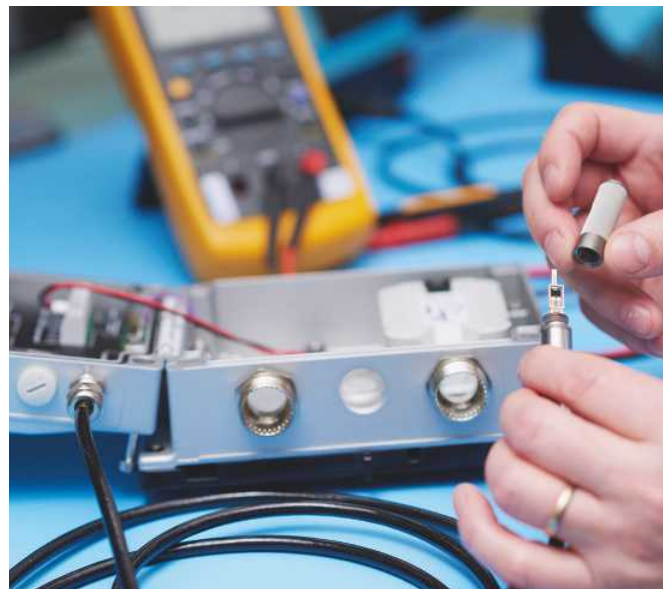

As a Care customer, you will get access to Vaisala's MyLearning training portal containing useful and interesting online courses. MyLearning course offering covers e.g. calibration principles and measurement of different parameters, and course content will be updated based on customer wishes and feedback. In addition, from MyLearning you can send training-related questions to us and participate in regular Q&A sessions with our experts. Our training helps you get the most from your Vaisala devices.

Planned calibrations with comprehensive content

As a manufacturer, Vaisala is able to offer you the most comprehensive calibration ensuring that the instrument meets its original specifications. All services are performed by professionals using the latest procedures and original parts.

Calibration service includes

- Functional testing
- Traceable calibration
- Instrument adjustment to meet its original specifications
- Filter change as needed
- Calibration certificate with as-found and as-left results
- Service report
- Calibration due-date update

How the return process works for Care customers

1. Use the Online return form to get the pre-filled waybill

2. Send your instrument to Vaisala Service Center by using our free shipping.

3. Calibrations are performed in our service center with priority status.

4. Your instrument is returned with a calibration certificate and service report.
